In the new name for the district, "S" would stand for Sabine, "A" for Port Arthur, "I" for Beaumont, "C" for Orange, and "L" for Lake Charles.

### PHOENIX-GULF STORES SOLD

Local Company Purchases 2 Furniture Firms

STOVALL, GENERAL MGR.

S. O. Latimer Named President of Local Company

The Phoenix and Gulf Furniture stores today became strictly Port Arthur institutions.

Announcement of their purchase by a group of Port Arthur men was made by George E. Stovall, president manager. It constitutes one of the biggest deals in retail business here in years.

The new company that took over the two stores is headed by S. O. Latimer, president; George E. Stovall, vice president and general manager; P. T. Donahue, treasurer; Raymond L. Murray, secretary and the following: Dr. Frank D. Mabry, W. M. Bergman, William Davis, R. E. McCoy, T. H. Shepherd, A. M. Kauffman, Elmo Lane and J. Corbitt.

The two stores have been owned by A. M. Kauffman of Beaumont, who also owns the Phoenix Furniture company of that city together with a branch in Orange.

Purchase, which has been hanging fire for several weeks was completed yesterday and today the two stores are being operated by the new company under the direct management of George Stovall. Both the Phoenix and the Gulf stores are two of the oldest retail institutions here. The Phoenix was formerly operated by B. Sachs, under the name of B. Sachs Furniture Co. and was purchased by Kauffman in 1917. Kauffman had previously purchased the Gulf from Taylor and Snyder and installed Stovall as manager who came here from Birmingham, Alabama.

Amount Involved

"We expect to continue business and operate along the same lines as we have in the past," said Stovall. "Port Arthur people have been very generous to us in the past with their patronage and now that the two stores are owned locally we expect they will continue if not increase this patronage."

The Phoenix is located at 525 Proctor street and the Gulf store at 600 Houston avenue. The amount of money involved in the purchase was not made known but runs into five figures, it was intimated.

Blaylock New

DALLAS MAYOR

Is Swept in By a Vote of 3 to 1

DALLAS, Texas, April 4.—Louis Blaylock, and a ticket calling itself the "democratic party," was swept into office yesterday by a 3 to 1 vote in the municipal elections here, tabulations showed today.

Blaylock, elected mayor, was formerly finance commissioner.

Blaylock was given a vote of 112,500 against his nearest opponent, Marvin L. Martin, leading the "Citizens' ticket."

The following commissioners were chosen:

John Harris, Gus Wiley, Harry Gowing, and Louis Turley.

Bond issues totalling \$8,425,000 were carried. They were for increased water supply, schools, street improvements, sewer, sanitary sewers, fire stations and parks.

HOSPITAL PLANS OBSERVANCE DAY

To Hold Open House On May 12th

Mary Gates Hospital will observe National Hospital Day, May 12, with a "Baby Show" at the hospital from 1 to 3 o'clock; and open house at the Nurses' Home on Lake Shore drive from 3 to 5 o'clock.

Inviting this morning a committee was appointed, composed of Miss Emma Walker, Miss Martha Lawless and Mrs. J. L. Jackson, and several doctors to be named later, to make arrangements and to have charge of the Baby Show.

Mrs. J. E. Higgins was appointed chairman of the program committee, and Mrs. D. P. Sheeks, chairman of the committee on refreshments. Mrs. C. L. Wignall, Mrs. J. B. Saint, and Mrs. A. W. McCord will have charge of the decorative features of the event.

Members of the Women's Hospital board will be general hostesses on this occasion, including Mrs. H. E. Goodwin, chairman, Miss Emma Walker, hospital superintendent; Mrs. J. B. Saint, Mrs. R. E. Latimer, Mrs. D. P. Sheeks, Mrs. C. L. Wignall, Mrs. J. E. Higgins, Mrs. H. W. McCord, and Mrs. A. Goldsby.

### Harnesses Air!

But Scientists Learn It is Only Joke

BERLIN, April 4.—Considerable amusement was afforded here today when it was learned that a New York newspaper had published a cable dispatch telling of a "story" printed by the Deutsche Allgemeine Zeitung, which related how a Russian had invented a method whereby the energy of the air could be harnessed.

"The story," which told how this harnessed energy might be used either for destructive or peaceful purposes, proved to be one of the customary April fool jokes which papers suggest the night when the harnessed energy of the air could be harnessed.

### DEMOCRATS WIN CHICAGO RACES

Thompson Ousted By William E. Dever

KU KLUX DEFEATED

Four Klan Candidates Beaten in Election

CHICAGO, April 4.—William E. Dever, democrat, was chosen mayor of Chicago to succeed William Hale Thompson in Tuesday's municipal election by a plurality of 13,728.

Morton D. Hull, republican, was elected congressman from the second district to succeed James B. Mann. He defeated Harrett O'Hara.

With Dever was elected a ticket of city officials that, with exception of the last remnants of the Thompson organization, once regarded as the most powerful political machine that ever dominated Chicago and Illinois politics. Thirty-eight of fifty aldermen chosen are democrats.

The election brings about complete alignment of political power. The victory firmly establishes the right of George E. Brennan to succeed Roger (Turn to Page 2 Column 3)

### SCHEDULE OF NEW GAS RATES ANNOUNCED BY LOCAL COMPANY

Rates announced today by the Peoples Gas Company as effective April 1 include the following:

RATE "A" Applicable only to present consumers who do not qualify for rate "D" below, and subject to the service rules and regulations of the company.

\$2.75 per M cu. ft. if bill paid on or before 10th

\$3.00 per M cu. ft. if bill paid after 10th

Minimum monthly charge, \$2.00 per meter.

RATE "D" With Qualified Deposit (Effective April 1, 1933)

AVAILABLE subject to the service rules and regulations of the Company, to any consumers who make and at all times maintain with the company a cash service deposit equal to one and one-half times their 12 month average bill, as computed at this rate.

RATE—First 5,000 cu. ft. per month \$2.40 per M

Next 5,000 cu. ft. per month \$2.30 per M

Next 10,000 cu. ft. per month \$1.90 per M

Next 10,000 cu. ft. per month \$1.60 per M

All over 30,000 cu. ft. per month \$1.40 per M

Minimum charge \$2.00 per month per meter.

Discount—None. If bill is not paid on or before the 10th of the month so much of the deposit as is necessary will be applied to said bill and unless deposit is restored by the customer to a qualifying amount by the 15th subsequent bill will be computed at rate "A" above and service discontinued as soon as any remaining balance of the deposit is exhausted in service rendered.

Deposits—The minimum qualifying deposit for this rate is \$10.00. Deposits in excess of \$10.00 will be computed to the nearest dollar. If additional deposit is required at any time the amount will be shown on the monthly bill. Interest will be allowed on all deposits remaining with the company six months and will be credited on the December bills unless service is discontinued before that time.

Rate "D" is a voluntary reduction by the company and the right is reserved to revert to a higher rate under the provisions of Ordinance No. 519.

### TWISTER HTS NEAR JASPER

Details of Tornado Are Not Learned Here

PHONES CRIPPLED

All Communication From Houston Cut Off

According to meagre reports reaching here this afternoon, a cyclone struck several small villages and towns north of here last night about 8 o'clock near Rogersville, Kirbyville and Jasper.

Damage was confined to timber, a few houses and barns. All lines of communication out of Houston and Beaumont were badly crippled, it was reported this afternoon.

SLAYER OF FT. WORTH MAN FOUND INSANE

FOOT WORTH, Texas, April 4.—A jury trying Mrs. Goldie White in connection with the shooting of C. E. Myers on a downtown street here last week, returned a verdict of insanity yesterday. She will be sent to the state insane asylum.

### \$2.40 GAS PUT IN EFFECT

Restraining Order Held Says Wister

IGNORE ORDINANCE

Logan Says Facts Have Been Misquoted

An injunction restraining the Peoples Gas company from putting a rate of \$2.40 into effect, announced today by the company as effective April 1, will be sought by the city of Port Arthur.

This was the statement issued today by Vernon J. Wister, city attorney, when he learned of the gas company's announced rates, in conflict with the rate of \$2.25 ordered by the city in an ordinance, also effective April 1.

City Rate Ignored

Ignoring the city's \$2.25 rate ordinance, the gas company goes further and orders a deposit equal to one and one-half times the consumers' average monthly bill which conflicts with the deposit ordered by the ordinance, equal to the average monthly gas bill out of a period of 12 months, Wister said.

Charging that the company will not earn depreciation, much less a return on their investment, if the \$2.25 rate goes into effect, the statement of the gas company goes on to say that "the company is proceeding to make permanent its injunction against the city commission for illegal ordinances and harassment which have characterized the present administration."

"Lowest Rate"

"The new rate of \$2.40 is the lowest the company can make at this time," the statement sets forth. "The report of Burns and McDonnell, appearing engineers, shows conclusively that the company made only a small return on existing rates and that the company is legally entitled to continue existing rates, if it so elects."

## LEAGUE SEEKS PEACE EFFORTS

World to Be Invited to Join Nation

GENEVA, April 4.—During the coming year half a dozen great international conferences will be held under the auspices of the League of Nations in the general efforts towards international peace and the improvement of international humanitarian and economic conditions.

In full accordance with what is now the recognized role of the league in world affairs, no effort will be made to impose anything on anybody. The conferences will endeavor to work out the best possible solutions of the problems, but when these solutions are finally embodied in international treaties every state will be left free to accept or reject them, according to its best interests.

One of the first of these international conferences will be for the purpose of extending the principles of the Washington naval disarmament pact to all of the other nations of the world.

This conference will not be held until after the conference of the Pan-American union, at Santiago, this month, so that the league can coordinate its work as much as possible with that of the Pan-American union. Still another conference which the league will hold this year in the interests of peace is for suppressing the private manufacture of war material and the international traffic therein.

The United States will be asked either to participate in the conference or else to signify how far she would be willing to go along with the rest of the world in solving this end of the problem.

Germany Invited  
While the participation of Germany would ordinarily have also been an important element in the solution of the problem, the prohibition under the Versailles treaty of the manufacture of war material does not make her participation so important. Nevertheless she will be invited to take part in the conference.

The league has also fixed October 15 as the date for an international customs conference to see what can be done about breaking down customs barriers that are now proving most serious obstacles to the resumption of international trade and commerce. All states, whether members of the league or not will be invited to participate.

The league will also hold during the year its second international conference on communication and transit at Geneva. The first one was held at Barcelona two years ago and the second will tackle a number of new questions such as providing a common sanitary regime for international waterways.

As a result of the new map of Europe a number of big rivers which were previously largely domestic in their activities have now become international waterways. The first of a common sanitary regime in all adjacent states has resulted in their becoming a source for the spread of epidemics. The conference will endeavor to take care of this problem. Finally this conference will have to deal with an international treaty covering railway traffic generally.

Finally during the year the league will hold other international conferences, being held in large part with the mountainous question, such as the white slave traffic and opium. An effort is also being made to reduce the league to situation an international conference on the question of emigration, on the future of North and South America have suddenly caused this question to become one of the greatest possible economic importance.

## U. S. Wins Half Million Verdict in Motor Case

WASHINGTON, April 4.—Winning a decision in favor of the government against the \$67,748.30 in the District Motor case in the United States district court of New Jersey, representatives of the department of justice, in the decision shows the government is a valid claim against the Willys-Knight Co.

The decision was one of the United States district court decision against the Willys-Knight Co. for the sum of \$1,000,000.00 alleged to have been extorted that corporation on a contract for airplane motors during the war period.

Prosecutions started after the affairs of the concern had passed into the hands of the Willys-Knight corporation as receivers.

## JAPS AHEAD OF AMERICA'S NAVY

Congress to Be Asked For Appropriations

WASHINGTON, April 4.—Alarmed by reports Great Britain and Japan are outdistancing the United States in construction of fast cruisers and submarines, the next congress will be asked for appropriations to bring the American navy up to standard in this respect.

The decision is predicted on assumption the administration policy to be formulated when President Harding returns to Washington will call for abandonment of the program of elevating the guns of the American navy to increase their range. The navy had begun this program on information England had already elevated its guns. This was later shown to be an error, acknowledged by Secretary Hughes, who admitted the United States' information was unsubstantiated.

Immediately upon the return of Mr. Harding a conference will be held with him to determine the future naval policy. The conference will deal with all features of the new naval competition which is arising and which threatens to overturn the work of the arms conference.

## Men Quit Cigarettes; Girl Smokers Cause

NEW YORK, April 4.—Men are reported abandoning cigarette smoking, formerly considered quite manly, even to the degree of roughneckishness.

The cause? Cigarette smoking has become so general among the fair sex that men declare it is becoming a mark of effeminacy.

The temperance recently forbade him to smoke cigarettes and gave him a corn-cob pipe.

Reformers are now wondering about the effect on men of the general use of the moonshine flask among women.

## RATTLE OF TYPEWRITERS HEARD IN PALACES OF VIENNA WHERE ONCE BEAUTY AND LAUGHTER RULED

VIENNA, April 4.—Austrian nobility, thrown from the even tenor of its way by the downfall of the Austro-Hungarian monarchy, has found its various natural economic levels.

The advice of the former ruling class to their brothers in other countries would be, "buy real estate." Those of the Austrian nobility who had, are getting along as well as ever. Others have gone to work, contracted wealthy marriage. Some are living in genteel poverty. The rest have gone under.

Vienna used to be the gayest capital in Europe. Now the palaces that once echoed to merriment and laughter and music are full of staccato notes of the typewriter—taken over by commercial firms owing to the housing shortage.

The rich Polish and Bohemian nobles who once squandered money here have withdrawn to their feudal castles in Hungary, Poland and Czechoslovakia. Those of the Austrian aristocracy who remain are leading quiet lives.

At the Jockey club, the city's most exclusive gathering place, a few may be seen daily, gossiping, discussing politics, playing bridge. The only member of the old regime who still participates actively in politics is Count Ottokar Czernin. He represents the labor party in the National council.

Count Johann Schwarzenberg and Prince Johann Liechtenstein are still familiar figures in the streets, along with Prince Max Hohenberg of Hapsburg, eldest son of the former Archduke Franz Ferdinand, heir to the throne, whose murder at Sarajevo precipitated the world war.

With the overthrow of the monarchy, all the properties of the Hapsburgs were confiscated, but the Prince was allowed to keep two rooms.

Every day Prince Max can be seen, his hands under his arm, going to and from the University of Vienna, where he is a student. He takes his meals in a cheap restaurant, passing in the crowd unnoticed.

Count Max Tison Furstenberg, lifelong friend of the German kaiser, left Vienna at the time of the overthrow, but continues to be a valued member of the former kaiser's household at Dorn.

Marrying the New Rich  
One of the new pursuits of the nobility is marrying into the wealthy, if less aristocratic, families of the industrial class. Marriages which at one time would have meant social ostracism are now popular. Only recently a daughter of Count Dietrichstein married a rich factory owner.

A wealthy sailor, no matter how humble his background, is welcomed today by any aristocratic family.

Chief among the nobles who have entered the business world are Count Pallavicini, Prince Eric of Thurn and Taxis, and Count August Sillau.

Then there is the last class, a woman enters an exclusive fashion shop. She opens a small parcel, and takes out a half dozen beautifully embroidered handkerchiefs. The proprietor wonders that the woman's workmanship is so good, and is about to pay the money for them when she looks into the woman's face.

"Countess? You?" she exclaims.

"Yes," replies the other, "I hope you can use more of my work. My son was terribly injured in the war, and I need money for his care in a sanatorium."

A community kitchen where food is given daily to the needy. Two old gentlemen enter, each carrying his own knife, fork and spoon. Although they go there daily, they enter hesitantly to the rich plates at a long table with the rest of the underprivileged. Not so long ago both were honored guests at the Emperor's table.

In the ward room of a city hospital a woman of middle age, but whom want, care and worry have aged, is spending her last days. At one time she ruled the royal ball rooms. Now friends pay the small fee for her stay at the institution.

## Adopts Girl to Avoid Bars of Immigration

MADISON, April 4.—Adopting her mother's daughter to get her to America is the procedure used by one Madison woman to win against the immigration laws.

Mrs. Emil A. Sehofer, 709 Conklin, has a mother living in Czechoslovakia. The mother's adopted daughter, Anna, was the only barrier to the parent joining the daughter residing in Madison.

After a conference with Judge A. G. Zimmerman of the county court here it was arranged that Mr. and Mrs. Sehofer should adopt the seven-year-old girl, making her an American citizen and thus enabling her to enter America.

## VAST HOARD IN MEXICAN HILLS

Hidden Treasure May Be Pirate Gold

BY FREDERICK NEUMEIER  
MEXICO CITY, Mexico, April 4.—Americans and Mexicans are prying into the mysteries of "Treasure Mountain."

High up in the Sierra Madre mountains, near the village of Cruz de Piedra, in the State of Mexico, Indians say is buried a large amount of gold and silver—treasures of brigands. It is believed the treasure, if it exists, was stolen many years ago when gold and silver was carried overland from the Pacific coast to Mexico City. It may be pirate gold, some say.

Headed by Adolfo Sandoval, the little group of Americans and Mexicans have begun efforts to find the missing treasure.

For many years Indians have told

stories of the treasure hidden on top of the mountains, but these were believed to be legendary tales, until a few months ago when an old Indian tempted to cash a gold bar at a bank in a nearby city. The banker saw that the gold bar was not of the kind now made and called in the police.

The old Indian told of the treasure which he said was enough to pay off the national debt of Mexico. He claimed that the story of the treasure was passed on to him by his father.

The Indian then led a group of officers on a horse back to the mountains. He told them to start digging at a certain point until they reached an underground marking stone. This they did and the stone was found. Then he told them to dig until they found a cross and the bones of two Indians who, he said, were killed by his father when he sealed the cave in which the treasure was placed. This was done and the bones were found.

But now here the mystery deepens. The next morning the Indian had disappeared and, according to the story, has not been seen since. Attempts were made to find the treasure, but of no avail.

Sandoval and his small group of

adventurers, however, believe that the old Indian's tale is true and they are prying into the mysteries of the "Treasure Mountain."

## '14 Miles to a Doc' Auto Warning Says

READING, Pa., April 4.—A tombstone, erected near Hughes hill on the Pottsville pike, is a grim reminder to reckless automobilists of the dangers of careless driving. The stone has the word "dangerous" at the top and a skull and crossbones, with the words "Fourteen Miles to the Nearest Hospital."

## STEAL HEARSE, THEN TRY TO SELL IT BACK

NEW YORK, April 4.—Accused of the theft of a funeral coach and with attempting to sell it to its owner, an undertaker, three men were arrested. They might be at liberty, the police say, if Mike, the horse-drawn coach, had not balked at the moment detectives were in sight and helped the trio coast Mike along.

The trio, coach, Mike and casketman finally arriving at Andrew Devlin's undertaking shop. As they lingered near one of the trio offered to sell Devlin the rig for \$100. Devlin recognized the coach as his own.

## BILL'S STEPSON HAS 40 ROOMS

13-Year-Old Thought He Needed It

BERLIN, April 4.—Ex-Kaiser Wilhelm's 13-year-old stepson thought he needed a castle with forty rooms. He has it—thanks to the ruling of a Prussian court. The ex-kaiser's son, Prince Heinrich, had a lot of things to do. He had to get a castle for his bride, and he had to get a castle for his bride's family. He had to get a castle for his bride's family. He had to get a castle for his bride's family.

When Heinrich von Carolath-Schoenau, brother of the ex-kaiser's wife's first husband, died he left his forty-room castle Antitz to the 13-year-old son of his sister-in-law, Princess Herta.

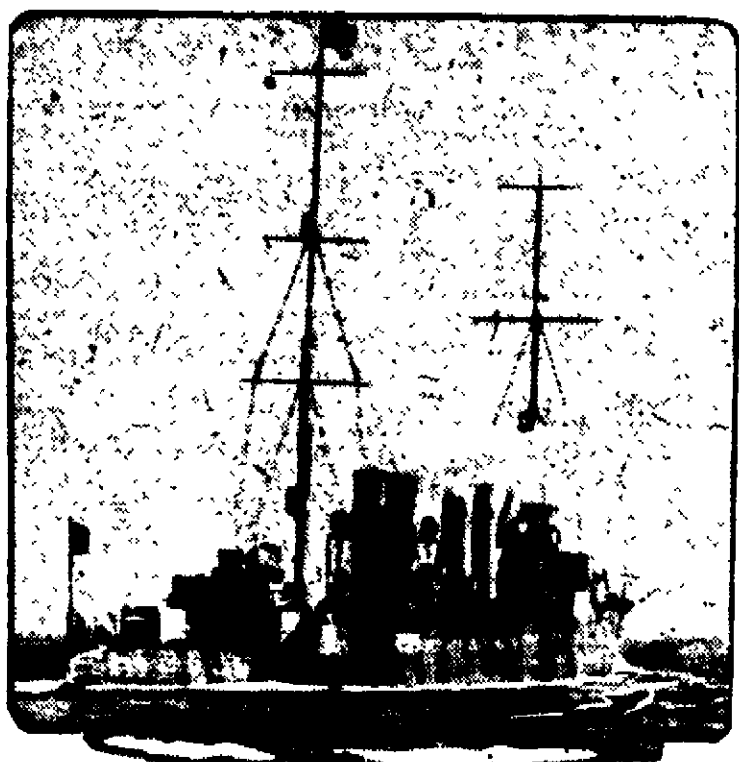

Herta, who now calls herself "Empress and Queen of Germany and Prussia," because of her marriage to Wilhelm, instructed her young son to move into the castle. The young prince, however, did not like the idea of moving from a forty-room castle into a twenty-room affair and wrote long letters to Herta and the ex-kaiser, asking them to let him stay at home. Herta, however, acting on Wilhelm's advice, remained obstinate and Margarette was forced to move to Starzedel.

Living there in four small rooms was a poor merchant and his wife and children. Margarette, declaring she needed all of the twenty rooms for herself, brought an eviction suit against the merchant. The dwelling house and the district president decided in favor of the princess and ejected the merchant and his family. Herta and Wilhelm, after first upholding their son in evicting Margarette from the bigger castle, now turned to support the widowed princess, writing long letters upholding her stand, declaring any person in the castle was the blue blood of a Schoenau. Carolath-Schoenau "could not share his castle with common people."

The merchant who fled to Berlin with his family, lived a lawyer here and obtained a government commission to go to the district, which he visited the case, notwithstanding his near Frankfurt-on-the-Oder, to investigate the case. The local authorities informed the commission that "the government had nothing to say in the matter," referring the members to the Princess Margarette herself. However, when the commission visited the princess, they were told she was "out for a walk."

The affair has aroused a demand that great castles of the forty rooms which are used in forty two persons should be thrown open for the free use of the Ruhr refugees.

## Seeking Mementoes Of Queen Adelaide

ADELAIDE, Aus., April 4.—Sir Edward Lucas, agent general for South Australia, is making a collection of mementoes of Adelaide, wife of William IV., for the archives of this capital city, which bears her name. Sir Edward made a public appeal for souvenirs of the queen and the response was most gratifying. Queen Mary sent two silver candlesticks which were the property of the other queen.

Sir Edward received a number of letters in Queen Adelaide's handwriting and some gifts more or less personally associated with her life. A copy of Paradise Lost, translated into Italian by Guido Sordani, contains the queen's autograph. The Victoria and Albert museum sent a pair of Queen Adelaide's satin shoes. Another gift is a pair of large pistols, probably carried by the queen's bodyguards. One of her escorts when she was journeying. There is a toothbrush with the royal cipher on it and a cushion cover representing her majesty's skill as a needlewoman. A contemporary colored print picturing the queen standing on a warship is especially valued.

Sir Edward has purchased a French clock which was among the personal assets dispersed by auction after the queen's death. All these things will be treasured by the city council of Adelaide.

## Defaulter Insisted On His Punishment

BIRMINGHAM, Ala., April 4.—C. T. Chesser, 28, of Shoups, Geneva county, could easily have made his escape after defaulting to the amount of \$12,000 while serving as cashier of the Bank of Alabama but he preferred to take his medicine and make a new start in life as soon as possible.

The state bank examiner discovered his shortage but the bank was fully protected by bond. Chesser knew he was to be indicted by the grand jury but made no effort to escape. He voluntarily appeared before the circuit court, pleaded guilty and asked that his sentence begin as soon as possible, as he wanted to get through with it. Next day he traveled alone 100 miles to surrender to the state banking department at Montgomery.

"Well, I'm here," he announced on arrival, "and ready to serve my sentence. I realize I did wrong. I want to pay for my offense the only way I can. I'm anxious to get out of prison as early as possible so I can work hard and pay back every cent, with interest. Give me a chance and I'll do it. When I finish the job my wife is not going to be ashamed of me. So let's begin right away. Thank God I have no children to leave a stain on."

Chesser has been in the penitentiary for three years. So far he is making an ideal prisoner.

## TOURIST STRIKE IN GERMANY ON

Many Hotels Empty First Time Since War

BERLIN, April 4.—The American colony in Berlin has gone on strike against the high price wave dominating Berlin business—especially the big downtown hotels.

The Adlon hotel, long the center of American activities in Berlin, is being rapidly emptied of American guests who have lived there for years. The price of rooms coupled with the 80 per cent lodging tax levied against all foreigners has started the colony looking for new quarters.

The rates at such hotels are such that even the special price given permanent guests are higher than the prices paid in leading American hotels. Many of Berlin's hotels are at the moment partly empty—for the first time since the war. The Adlon is considering closing one whole floor. Formerly a transient from abroad couldn't get into the Adlon without bribing the clerk or ordering days ahead by wire.

In addition to the American colony, the group of international professionals, consisting largely of Russians, is also beginning its exodus from Germany. Reports are that they are going out to Paris where they look for the next money slump and consequent cheap living.

Want to Smuggle Tax As a result of the slump in traffic there is a decided agitation for reduction or removal of the 80 per cent tax. The Lokal Anzeiger which has been one of the bitterest against foreigners, now sheds bitter tears because foreigners are quitting Germany. The newspaper admitted that there is now no danger of an "auverkauf"—selling out—of Germany to undesirable foreigners, but on the other hand there is a great likelihood of all foreigners giving the country a wide berth.

In addition to the wave of high prices which has set in here to discourage traffic, the government has put on such restrictions on passports, visas, etc., that it is nearly impossible for anybody to come into Germany. Big hotel men and retail stores which have never had anything against foreigners are beginning to clamor for relaxation of these regulations and are praying that the big tourist wave of last summer will set in again, despite the uncertainty of travel caused by the Ruhr disturbances and despite other discomforts involved in pleasure seeking in Germany at this time.

CATCHES UP WITH NEWS COLUMBUS, Ohio, April 4.—George Busch, returning home after traveling through many parts of the world, has just learned that two of his brothers were killed in railroad accidents here a number of years ago and that a sister-in-law and a niece were drowned in a flood 10 years ago. Busch's relatives had not heard from him for 19 years.

## LOVE WINS OUT

Heiress Weds Book Agent in Spite of Objections

TOLEDO, April 4.—Love found a way for Erna Marchhausen, Detroit heiress, to elude the police and those who, it is claimed, would confine her in hospitals against her will, and enabled her to marry Christian Frederick, book salesman.

Mrs. Frederick is the daughter of the late August Marchhausen, millionaire publisher of the Detroit Abend Post.

After eluding the police of both Detroit and Toledo, the couple obtained a marriage license at Probate Court here, and were married by Municipal Judge James Austin.

Mrs. Frederick said her mother had her confined in the psychopathic ward of a Detroit hospital after police prevented her marriage in Detroit.

Last week, she declared, she obtained an injunction against interference with her actions after Dr. Thomas K. Gruber, superintendent of Detroit Receiving Hospital, declared her sane.

## Youngest

LOW ANGELES, Calif., April 4.—The youngest grandchild of a Los Angeles couple, who had discovered its grandchild's grandmother at 34, was born when she was 20, and her mother when she was 16, and her father when he was 17 and his mother when he was 16. Mrs. Buckley became a grandmother.

Friends of slighted grandmothers hastened to take Mrs. Buckley's short-lived laurels away. She is a grandmother under 20 years of age.

Mrs. Jessie Myers holds the record at the present writing. Mrs. Myers is a grandmother, and she only celebrated her thirty-second birthday on March 19. At the age when many women are caring for their own babies, Mrs. Myers is helping care for her three weeks' old grandchild.

The child's mother is Mrs. Bertha Blanche Hauschild. She will be 30 years old on August 31 next. Mrs. Myers was 14 years old when she married, and 15 when Bertha was born.

Not only that, but the baby's great-grandmother is living, and is only 47. She is Mrs. Vina Cunningham.

## Criqui, Model Fighter, Retires at 9 Bells and Leads a Perfect Life

Frenchman, 30 Years Old, Faced 105 Opponents And Has Become Idol of France; Fought First Scrap at 15 And Won.

NEW YORK, April 4.—Who's showing the world how to be physically perfect? Why, the prize fighter. And who's showing the world how to be morally perfect? Why—er, the prize fighter. You might just as well come out and admit it. Take this Monsieur Criqui, for instance. Monsieur Criqui has come over here to make hands with Jonny Kilbane, after which he expects to set up the world's featherweight championship in a bag and take it back to La Belle, France.

World Monsieur Criqui stay out after earflap? Or play red dog for as much as a nickel line? Or look down on a piece of French mystery? On Monsieur's life, he would not. Why, bless your soul, he won't even one-step! His favorite music is Carmen.

My parley with Criqui took place in the office of Dan McKerrick, local representative for Criqui, newly arrived in America, who sat meekly in a chair. His manager, Robert Endelline, sat opposite. The four interpreters hopped excitedly about. "Tell me," I said in effect to Criqui, the story of your life. Criqui looked puzzled. The interpreters interpreted. Criqui began to speak. The four interpreters gesticulated wildly. Out of it all I was able to gather the following things about Criqui:

Criqui is 30 years old and weighs 122 pounds. His first official combat took place when he was 15 years old. It was a small affair of four rounds, but Criqui was victorious and a grateful manager bestowed upon him the sum of 15 francs. Criqui bit in his winnings on the ring and straightway became a popular idol. Since that time he has taken part in 105 bouts and has won all but eight of them.

The official record of his battles does not include the late European conflict in which Criqui encountered a bullet which tore away the lower part of his jaw, disrupted 19 of his teeth, cruelly lacerated his tongue and finally emerged triumphantly at the back of his neck.

French surgeons pattered around with him, took out a piece of one of his ribs and used it to make Criqui a new jaw. Then they made him a new set of teeth. But for two years and more Criqui lay in the hospital, speechless and without hope.

Enter Monsieur Endelline. "Courage, boy, courage," whispered Monsieur Endelline, who had already seen something of what Criqui could do. Criqui took courage and staged the comeback which made him champion of Europe.

Sleep is the most important item in Criqui's daily routine. He sleeps from eight to 10 hours and takes a short nap during the day. For breakfast he has "café au lait," cup of coffee. For luncheon and supper he has many, many vegetables and much red meat. Chicken he does not like. It has too many bones. For an hour or so each afternoon he plays belotte with his trainer or sparring partners. But it is for recreation not gain. There was a time before the war, of course—before he was back in his chair and smiled pleasantly at the collection.

Criqui is slight as he is a feather weight champion. His hair is slicked back into a nifty pompadour. When I saw him he wore a soft shirt, a dark blue suit with a tiny red stripe running through it and very pointed soft brown shoes. In sooth, a most well-mannered young man.

And has he much chance of the world championship? All of a steady eye, a quick foot and a gentle mind, the bearing have nothing to do with it.

## DEMPSEY MAY GET BOUT SOON

Rumor Points to Gibbons as Next Opponent

NEW YORK, April 4.—Jack Dempsey will get a job in the ring this summer even if the bars should be held up against Harry Wells and the peso market should crash in South America.

The act of the boxing commission in promising permission for a Dempsey-Gibbons bout at the St. Paul club longer should beat Jack Remult, the Canadian makes the proposed Dempsey-Gibbons bout ready for the promoters.

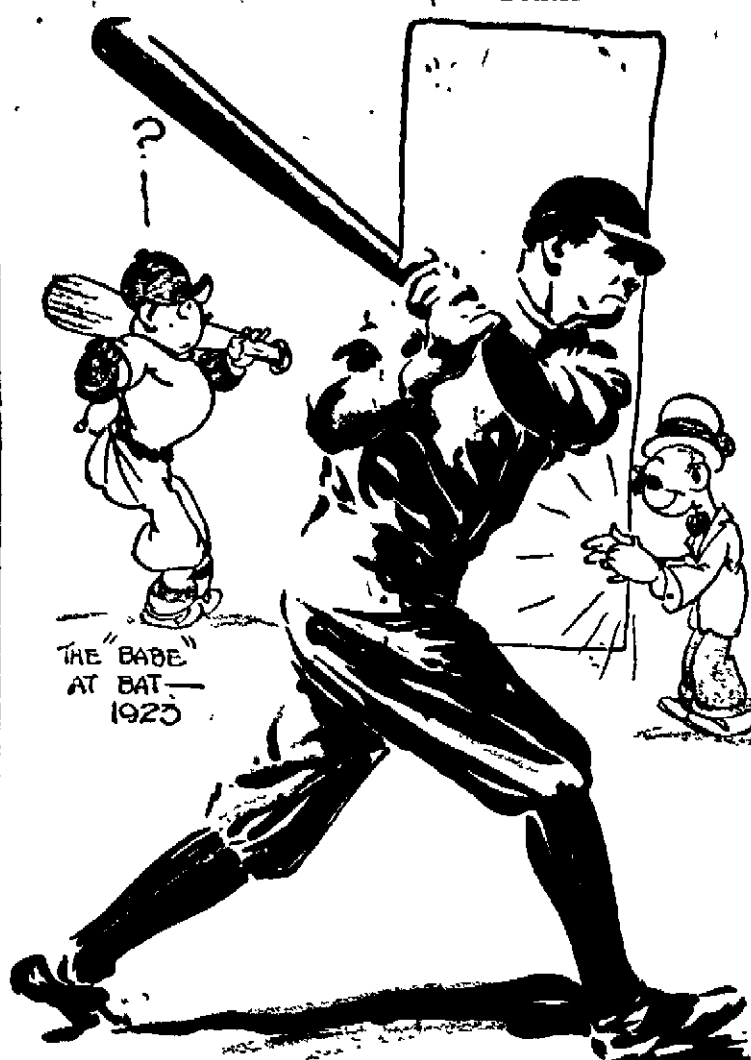

Tex Rickard, beyond doubt, is willing to make both matches. He has looked with favor on a bout between the champion and Gibbons for some time and he had it all ready for the making when the commission gave him the boot on the ground Gibbons was too small.

Gibbons should have no trouble with Remult, who, for some reason, seems to be very highly regarded by the commission although his record does not justify him as a great fighter. He came into prominence recently by defeating George Goffey, a colored heavyweight who was being built up to embezzle Harry Wells. Just a few days ago Remult was thrown out of the ring in a contest for not trying.

There seems to be a big hunch around town that something will happen to Willard and that he will not appear on the pugilist card.

While he was here pleading the case of Tom Gibbons with the New York solons William F. Sailor, chairman of the Minnesota commission, told the New York bosses that the people out his way thought a mistake

WICHITA FALLS, Texas, April 4.—R. O. Hayes, president of the Spudders, announced that the local baseball club had acquired a substantial interest in the Paris team of the Texas League.

## 100 ENTER MEET

GALVESTON, Texas, April 4.—More than 100 golfers were to tee off at 8 a. m. today in the qualifying rounds of the seventeenth annual tournament of the Texas Golf Association.

Holders of the thirty-two lowest cards at the end of today's play will be qualified for the championship play which starts tomorrow. Seven other opportunities will be open to those not qualifying for the championships.

Weather predictions were not exceptionally good today. A forecast of partly cloudy and unsettled was made yesterday.

## BUT ONE ROOKIE! BEAUMONT LOST PITCHER LOOKS FIRST CLASH TO GOOD TO RICKEY

Lad From Rice Institute Shows Up

From a pitching standpoint, the spring training trip of the Cardinals at Bradenton, Fla., seems destined to prove a failure, as far as the recruits are concerned.

Of the many pitchers taken south only one has shown enough stuff to impress Manager Hickey that he is up to the major league standard.

That pitcher is Fred Wazington, a big right hander from the Nebraska State League.

Edgie Dyer, a left hander from Rice Institute, Texas, is promising, but Hickey intends to make an out of field of him, so as to utilize his speed and batting ability.

All of which makes it seem that the pitching burden will be entirely up to the veterans.

Hickey's list of veterans include Puffer, Shouffell, Toney, Humes, Dink, North, Petrea and Barfoot.

Hickey feels that Puffer and Shouffell will deliver, and is hopeful of getting much aid from Toney, Humes and Dink.

## LONGHORNS WIN

AUSTIN, Texas, April 4.—The Texas Longhorns trounced Daniel Baker 35 to 1, here yesterday. Captain P. F. Rube Larrison of Carroll led the attack for University, with two homers, a triple, single, and a sacrifice out of five times at bat.

## SOX VS. GIANTS

SHREVEPORT, April 4.—The White Sox and New York Giants play an exhibition game here today. They were rained out at Port Worth yesterday.

## Nebraska Ministers Join for World Peace

LINCOLN, Neb., April 4.—Appeal to the pastors of the various churches of Nebraska was sent out by the ministers of the leading Protestant denominations of Lincoln, asking ministers to join in sending telegrams or letters to President Harding commending him for his action in attempting to get the United States to become a member of the world court. The letter says in part:

"It is a noblest and most just world peace, and a sound basis upon which it can be maintained. World peace is primarily a moral issue."

"Being profoundly convinced that the basis of permanent world peace can never be reached without the participation of the United States, we find with delight the news that President Harding has asked the senate for permission for the United States government to become a member of the permanent court of international justice."

## Girls With 'Knees Out' Barred as Teachers By An Ohio Superintendent

DEFIANCE, Ohio, April 4.—"No girl with her knees sticking out below her dresses need apply to me to teach," declared County Superintendent William L. Monahan, addressing a joint meeting of school board members of Defiance county. Superintendent Monahan said he favors dress reform among the teachers.

## LIBRARY PUTS IN HISTORY OF WAR

Complete Work Also Added By High School

Written by American and foreign ministers, generals, foreign secretaries, ambassadors and other officials of both the allied nations and Germany, seven volumes of history dealing with the World War have been placed in the Gates Memorial library and the history library at the high school.

The sale of the volumes was taken over by the American Legion when it was found that the original publishers were commercializing them to a great extent. It is reported, every step in the war is carefully covered, giving copies of Trenchard's reports on various battles in which American forces were engaged, notably his official report on the St. Mihiel drive.

Brand Whitlock, American minister to Belgium, has given his version of the execution of Edith Cavell, British Red Cross nurse, and high German officials also have their report on the execution of the nurse published in the history. German efforts to keep the United States out of the war by stirring up trouble with Mexico are shown in the official dispatches passing between Count Von Bernstorff, ambassador to this country, and the government heads in Berlin.

## STILL SRAIDED ON PIKE'S PEAK

Bootleggers Paradise Found By Sheriff

COLORADO SPRINGS, Colo., April 4.—Two men are under arrest and hundreds of gallons of mash were confiscated as the result of a raid on what Sheriff Samuel Beckley termed "a bootlegger's paradise" high up on the slopes of Pike's Peak.

Sheriff's officers and Colorado Springs police reached the place, an abandoned mine tunnel near Mile Post Six on the Pike's Peak auto highway, before daylight. Scores of barrels of mash, running water piped from a spring deep in the mountain, a telephone and a stone fireplace fitted with gasoline burners, and oil stoves were found in the tunnel.

A cabin near the mouth of the tunnel has been used by Sylvester Bevil as headquarters in shipping timber out of the Pike National forest. In a raid on Bevil's home in this city, police say they surprised Bevil's wife carrying a jug. She ran into a bath room and poured the contents into the bathtub before she could be intercepted, they say. Bevil was arrested with Arthur Wilkins, said to be distributor of the product.

## NEW CANAL RECORD

ANCON, C. Z., April 4.—A new record for the Panama Canal was made the first half of March, when 208 commerce vessels passed through the canal in 15 days and paid \$935,608.06 in tolls. The receipts of the canal are steadily increasing, the daily average for 15 days in March being higher by 68 per cent compared with last October.

## William, Not George, Uses Coue on Landlady

CHICAGO, April 4.—William Washington appeared in court charged with carrying Coueism too far. Miss Etta Palmer, negro proprietor of the rooming house where William lived, said her boarder had held her up with a hammer.

"Dis am a pistol, dis am a pistol, dis am a pistol," he kept saying, pointing a common old hammer at me, until I believed he really had a gun," Miss Palmer testified.

As a result of the auto-suggestion she gave up her earrings, a diamond ring and \$2.50 in cash.

## RUSSIAN WINES FROM FAR EASTERN PROVINCES

MOSCOW, April 4.—Russian workers arriving from Vladivostok report that the mining industry in the far eastern Russian provinces is booming. American companies, they say, are paying high wages to miners who can speak English, and as a result the provinces of Kamchatka, Sakhalin and Okhotsk are teeming with prospectors and much development work is being done in the mining districts.

## Cook the Cool Way! Electrically!

DON'T let your wife cook over a hot range. Comfortable cooking is a long step toward good cooking. The Universal Electric Range assures both. It concentrates the electric heat directly under each utensil and sends it all into the cooking. There is no radiation into the kitchen. Even the range itself is absolutely cool except at the plates.

The absence of open flames is an insurance against accidental burns, and keeps the sides of the cooking utensils from becoming overheated. The thick walled oven retains every particle of heat, and does not permit evaporation. This allows her to reduce the cooking after cooking has commenced and to finish on stored heat.

These advantages of the Universal Electric Range permit her to regulate the amount of current to exactly the amount needed and to leave the range to complete the operation without further attention.

## WE WANT YOUR OLD STOVE

A liberal allowance will be given for your old stove if you buy a Universal Electric Range during this sale April 2—7 inclusive.

## ADVENTURES OF THE TWINS

"Why does she sew them on crooked?"

"What do you wish to see the Cut-Out Lady for?" asked the Muffin Man.

"We want to tell her to sew the Gingerbread Man's buttons on straight," said Nancy.

"The Gingerbread Man!" exclaimed the baker. "Why I made him myself a year ago last Christmas. I gave him a red tartan coat with cinnamon drops for buttons and white frills out of a candy box. Why does he need more buttons?"

"They come off in the wash," said Nancy. "Then when the Cut-Out Lady does his mending she sews 'em on crooked and they won't go into the button-holes."

"Why does she sew them on crooked?" asked the Muffin Man.

"Because the Gingerbread Man's kick-knock dog bites her cocoonut cat and pulls all the cocoonut fur off."

"Well, I declare!" said the Muffin Man. "I tell you what. When you see her tell her to send her cat to me and I'll make him a coat of hard ice that won't come off. Then he needn't be afraid of fifty kick-knock dogs. Now mind you tell her."

His voice trailed away into nothing.

The City Southern says business is bad.

"The business we handle, of course, doesn't go through here," he says. "That's not because of any rate changes; no, that at all; it's because the shipper routes the ship."

"We are handling a good export business on the products that have been questioned at this hearing. The export movement is controlled by foreign markets, and the Kansas City Southern has maintained what we believe to be a fair differential between the Gulf and other ports on this commodity, so that if any moves toward the Gulf, we participate."

"Cotton is reached by the Kansas City Southern in Kansas and Nebraska, but very little of it is exported. We did move some through here to the Belgians once."

"Lumber exports fell off in 1911 at the beginning of the World War, and oil developed our waters here later, and the shippers went up to Beaumont to get transportation out to the Gulf; and subsequently, the water went up there, too."

"Cotton shipments have fallen off since 1907 and '08."

"We arranged some time ago with the Southern Pacific to have an interchange of traffic over the Kansas City Southern at Beaumont, and that was and always has been an amicable arrangement, so far as I know; I don't call it any restriction, and the Southern Pacific has never complained of it."

"We helped Port Arthur to build hotels, Mr. Baanman. We helped Port Arthur to build schools; we contributed hands to the Gulf and Texas companies and made their assets here possible; we have always made this our terminal; we gave \$25,000 toward the construction of the Pleasure Pier and helped make that possible—it was a donation largely; we have always been interested in Port Arthur and we're going to help make it a city."

"I believe the Chamber of Commerce could get further if they'd cooperate with us rather than fight us. The only way we can get revenue on our facilities here is to get some from our railroad, and that's only just."

"We're asking for nothing unreasonable, nor never have; Port Arthur isn't standing still; the outboard business here from 1916 to 1922 increased from \$197,000 to \$870,000, and our business went over the million dollar mark at the same time."

"I think it is for us to determine what disposition we shall make of our own property unless we are doing something to the detriment of the public welfare, and I don't think we are. We're doing a lot of things, and four line haul business elsewhere, but we're giving service, so the argument that the two-line haul is interfering with shipments through this port does not carry any weight in my mind."

"I have conferred with the heads of the cotton business in Dallas several times, and some of them have tried to come to Port Arthur and over the shipping facilities here; cotton isn't selling now as it did in the war. We need to be able to get 10,000 and 15,000 bales at once for a shipment, but until the foreign market gets better, we can't bring

## DEMOCRATS WIN CHICAGO RACES

(Continued From Page 1)  
Sullivan as democratic "boss" of Chicago. He directed Dever's campaign and united the democrats behind the ticket.

Dever defeated Arthur C. Leander, republican, by a vote of 38,361 to 24,821.

William Cunniff, socialist, polled 40,841 votes, nearly double the socialist vote at the last municipal election.

Support of many Thompson backers was openly shown to Dever and in return they hope for democratic support in 1924 if Thompson carries out his intention of becoming a candidate for United States senator against Medill McCormick.

Four aldermen supported by the Ku Klux Klan were defeated.

Dever has long been active in Chicago politics. He came to Chicago when 25 years of age, starting as a worker in a tannery. He studied law at night and was admitted to the bar. He had just been elected to the sixth year of law school at the superior court when he took a leave of absence to conduct the campaign for mayor.

Mayor Thompson had no comment to make on the result. He received the returns in his office in the city hall with a few close friends. He withdrew from the race before the primary campaign.

The newly elected mayor is pledged to reorganize Chicago's traction system and get under way the city's subway.

## WISTNER HEADS CIVITANS AGAIN

Club Orders 'Shelf' for the Gates Library

Vernon J. Wistner was today re-elected president of the Civitan club for a term of 12 months when members of the organization held their annual election at their luncheon at the New Lake View hotel. Other officers elected for 12 months' terms were Leonard Power, vice-president; Ernest Canada, treasurer; Harry H. Silber, secretary; and W. P. Winkler, and Willard Davis, directors, with the officers.

Creation of "Civitan Shelf" in the Gates Memorial Library, and filling it with books that will aid school children in selecting a profession, or life work, was ordered by the Civitans upon motion of Leonard Power.

Fitting out of a downtown rest and comfort room also will be undertaken by the club, it was decided, following the presentation of the project by Dr. S. E. White.

## CITY WILL NOT ORANGE YMBL ENTER PARK ROW TO MEET HERE

Public Buildings May Enter Injunctions

No defense from the city of Port Arthur can be counted on in the event an injunction is gotten out to restrain the city granting a lease on a part of Lake Shore Park to the Port Arthur Athletic Association for the purpose of constructing a baseball field.

This is the statement of Vernon J. Wistner, city attorney, today in commenting upon the threatening injunction against the city to restrain the commission from granting a lease on the park property for a baseball field.

"The question is one for the courts to decide, whether or not the city has a right to grant a lease on a part of the property to the athletic association and I do not feel that it is the city's fight," Wistner said.

Parts of the city charter were quoted by the city attorney showing that the commission has control over the property, and can lease it or dispose of it as they see fit. But on the other hand, he said, the original grant of the Port Arthur Township company, deeding the Lake Shore property over to the city, sets forth that it was "for public parks and pleasure grounds only."

"Personally, I feel that the ball park, in itself, is not a public nuisance, and, surely, it is a pleasure ground," the city attorney said.

Of the high school building, the hospital, Port Arthur Business college, the Gates Memorial Library and the wireless station, Wistner held that all of these institutions are more or less public property, certainly for the convenience and benefit of the public, and are entitled to places in the city park.

"The fact that the election called on leasing the park property for a ball park showed a majority in favor of leasing the park for that purpose does not necessarily settle the question, although we believe that a majority should rule," Wistner said, explaining that if the majority deemed the wrong way, it is for the courts to decide the right way, and for the courts' decisions to govern the ultimate procedure.

SIX ARMY AIRPLANES COMPLETE LONG TRIP WASHINGTON, April 4.—The feasibility of air communication between the Americas has been demonstrated by the flight of six army planes to Porto Rico, which ended here yesterday, war department officials said today.

Outside from the importance of the flight from a military point of view, Captain Laughlin, commanding the squadron of planes, which hopped off from San Antonio, Texas, pointed out the possibilities for future commercial airplanes.

Creation of "Civitan Shelf" in the Gates Memorial Library, and filling it with books that will aid school children in selecting a profession, or life work, was ordered by the Civitans upon motion of Leonard Power.

Fitting out of a downtown rest and comfort room also will be undertaken by the club, it was decided, following the presentation of the project by Dr. S. E. White.

## Don't Let Your Kitchen-Work Wear You Out

You don't notice the extra steps you take and the needless motions you make in your kitchen, because you only take them one at a time. But—unless you own a Hoosier—you walk over two miles a day in the stuffy kitchen atmosphere. You do much needless stooping and reaching. No wonder the average woman is too worn out to enjoy her evenings.

## HOOISIER WILL MAKE YOUR WORK EASY

When you own a HOOISIER you get through your work in half the usual time. You are saved miles of steps each day. Needless backaches are eliminated, because there is not nearly so much stooping and lifting to do—and because the HOOISIER is the one kitchen convenience which adjusts your work-table to suit your height. All your necessary tools and utensils are scientifically arranged about a big uncluttered work-table. You do your work seated before this big, clean working space, entirely at your ease.

## MISS CRAMPTON HEADS ENDEAVOR

Elected Vice President at the Convention

Miss Esther Crampton of this city was elected first vice-president of the Beaumont District Christian Endeavor at the district rally last night at the Westminster Presbyterian church in Beaumont.

Miss Sophia Jaschke of Beaumont was elected president; Elmer Stockholm of Beaumont, second vice-president; Miss Virginia Mae Jolie of Beaumont, secretary; and Miss Agnes Christofferson, treasurer. Department chairmen and superintendents will remain in the same positions as during the past year.

A meeting of the Beaumont District C. E. Council, including the newly elected officers and department chairmen and superintendents will be held at the First Presbyterian church here, corner Fifth and Mobile avenue, Sunday afternoon at 2 o'clock. All local members of the council are urged to attend this session.

On Friday evening, April 13, a rally of the Beaumont District will be held here at the First Christian Church at 7:30 o'clock. The Beaumont Endeavorers will have charge of the program on this occasion, and the social features will be sponsored by the Endeavorers of the local Christian church and Presbyterian church.

## FILLS VACANCY

Mrs. R. H. Woodworth, widow of the late president of the First National Bank, was named a member of the board of directors of the institution to fill the vacancy caused by the death of her husband when the regular monthly meeting of the directors was held Tuesday.

With C. N. Bliss, vice-president of the bank, out of the city, no action to name a successor to R. H. Woodworth as president of the bank was taken, and it will not be before the next regular monthly meeting of the directors, bank officials said today.

R. C. Holmes, of New York, and F. C. Mauley, of Houston, both members of the board of directors of the First National bank, and Texas Company officials, were present at the directors meeting Tuesday.

## BUILDING PERMITS FOR APRIL REACH HIGH MARK

In the first four days of April, building permits have reached the \$50,000 mark, it is reported at the office of E. H. Miles, city clerk. A batch of 25 permits for as many residences with a total value of \$40,000, was taken out Tuesday by H. L. Warren, building contractor.

## RED CROSS IN FINANCIAL RUT

Rev. Deschger Says the Hut May Be Closed

Abandonment of the Red Cross work in Port Arthur, closing the hut and community health center at Dallas avenue and Fifth street within 30 days because of lack of funds to "carry on" faces the Port Arthur Red Cross chapter.

This announcement was made today before the Civitan Club by Rev. William Deschger, representing Tom W. Hughes, chairman of the local Red Cross chapter, in delivering a plea that Civitans join with other clubs here in an effort to save the Red Cross and its work.

"Every card the Red Cross has will be laid on the table at a meeting called by Chairman Hughes for 2 o'clock next Sunday afternoon at the Red Cross hut, and he has asked that this club, with other organizations in the city, appoint a committee of five to attend that meeting and rally to the forces of the Red Cross here," Rev. Deschger told the Civitans.

In response to the plea, Vernon J. Wistner, Civitan president, appointed Dr. S. E. White, C. F. Trice, Harry H. Silber and himself to attend the Red Cross meeting as representatives of the club and join with other representatives in efforts to devise ways and means for securing the financial backing for the Red Cross work.

Other than to say that unless funds are immediately forthcoming the Red Cross will be unable to go for more than 30 days longer, it is not known just how badly the organization is "up against it," Rev. Deschger said. All of these facts and figures will be brought out by Chairman Hughes at the meeting Sunday afternoon, he said.

## JACKIE COOGAN NOW OIL KING

5,000 Barrel Well Comes in For Him

LOS ANGELES, Cal., April 4.—Lady Luck simply can't desert Jackie Coogan, film star and the world's greatest self-made boy.

"Jackie Coogan number two," his second oil well at Huntington Beach, Cal., came in with a rusa last night at five thousand barrels a day, which will have to be added to Jackie's income.

"Jackie Coogan number 1," has been pumping for a number of months and turns fat checks to Jackie's account every month.

The "Jackie Coogan" company is a closed corporation in which Jackie owns the bulk of the stock, the rest being owned by his parents and a few of his business associates.

# McDougall

The Only Auto-Front Kitchen Cabinet

Is Preferred By Household Economists?

It's because McDougall has steadily maintained a lead in the improvements and refinements of the first kitchen cabinet made until today it stands without a peer. Only a demonstration can tell the complete story.

Sit and Reach—don't stand and walk, for a few cents a day you can have a McDougall, it will save more than that in time, worry and work.

When the porcelain table top is extended full width, the cutlery and linen drawers come forward, too. The McDougall drawers are finished inside and out with two coats of Spar varnish.

The flour bin comes out and down with one hand, 50 lbs. capacity.

Steel corrier braces hold base rigid and square.

Bread and Cake Box are rust proof.

Rust-proof hardware, throughout.

TERMS EASY

The McDougall helps you solve your practical kitchen problems. To open the storage cupboard, just touch the latch. The patented Auto-Front curtain will drop out of sight. There are no crevices in which food and dust particles can collect. No other kitchen cabinet can have this sanitary, easily operated curtain. That's just one of the big advantages of owning a McDougall.

## YOU AND I

## TESTIMONY

You've heard of strange wills, but here's a world beater. Ashur Rykus, a Jew, died in Brooklyn, N. Y. He had a gambling. The family gathered to hear his will read. He remembered his son Ben handsomely, but specified that Ben knew his share of the estate if he plays cards 30 times within a year. Why? Ben can play any game and still be in bounds.

Every man should make a will—immediately. Also, make it cautiously. Most of us would change our wills if we could come back a few months after death. Usually we become impersonal when the lawyer cleans his throat and starts dividing the property.

## DEAF

For the first time since babyhood Isabel Shabel hears. Radio works the miracle, in Indianapolis. Through her phone she can hear music, but not voices. Away from the radio-phones, she continues in absolute silence.

Nearly every town in the country is reporting similar cases. Science may be on the verge of discovering a radio device that will end the great misfortune, deafness, possibly all cases. One step further would bring artificial eyes that really see, for the blind. Living in an age of scientific magic? We're just entering it.

## POLICED

The allied armies of occupation since the armistice have cost Germany about 1200 million dollars. Eventually she'll have to pay all of it. In full.

That huge sum would have made a noticeable hole in Germany's reparations bill. If her resistance is broken, the "and costs" will add a lot to her fine. She knows it. That's French in the Rhineland as long as why she holds out against the victors. The struggle there probably is just beginning.

## SPECULATORS

Moths who are flitting around the bright flame of our stock market must envy the Germans. The bull market in Berlin makes stocks soar all along the line, some gaining from 3000 to 5000 points in one day.

It will wind up with the customary "taking down" of the stock, same as here. The jackpot will be pocketed by a few. No one can beat the stock market in the long run. And not one in a thousand has the sense and courage to quit when he is ahead of the game. At Monte Carlo, the bank (an individual table) is broken occasionally, but the "house"—never.

## CHAMP

Massachusetts offered a prize for the state championship in bread baking. Francis E. Davis, 16, high school senior wins the prize. How did he beat out the girls? By experimentally baking 136 loaves of bread, until he produced the prize winner.

The most interesting angle of this story is the nature of Davis'. He's a lucky chap. Looks more like a football fullback than a chef. Read this to son if he is led to a rest to help mother with the dishes, who does washing or other house chores. There isn't much manhood in a chap who lets ma do the heavy work and dodges helping her in lighter tasks.

## POCKETBOOK

Times are going to be good, for the rest of the year at least, predicts the conservative and able Harvard Economic Service. Its economic "background" is the last word in scientific statistics.

Another word authority is Benjamin M. Anderson, economist of the Chase National Bank of New York. He says the sound and credit business man "will be very conservative in paying out dividends or in taking profits out of the business. He will seek to conserve profits and to enlarge surplus as a buffer against future shocks."

A good lead to be followed by the average man.

## Tom Sims Says

Spring is when nature says it with flowers.

Counting to a hundred before starting a fight is nice, but Jack Dempsey counts to \$750,000.

These are the days budding poets get tipped in the bud.

Rice Lake (Wis.) man accidentally put a bullet in his pipe. He found it was smokeless powder.

## CITIZENSHIP AND THE FLAG

The Rev. Karl Otto Walther, formerly a resident of Hoboken, was denied citizenship papers by Supreme Court Justice McCarthy recently on the ground he had claimed exemption from the draft as an alien.

You stepped aside when the war came," Justice McCarthy said, "to make place for some other mother's son."

Hurrah for Judge McCarthy! You can't make a silk purse from a sow's ear, nor a good American from a draft dodger. And the more publicity given the fact, the less will be the applications for citizenship papers from those who think the United States is "a good thing" and "an easy mark."

A flag good enough to live under is good enough to fight under. A land good enough to live on is good enough to die on. A country good enough to live in is good enough to defend. Heaven be thanked for the McCartneys who guard the great gift of citizenship with such high ideals.

## WOMAN GETS THE PAY CHECK

Woman has the ballot. The politician knows it. In New Orleans there has been an innovation. Hereafter all the married employees of the city government have been notified their pay checks will be sent to their homes. This makes it possible for friend wife to get the check first. Heretofore, all the employees were handed their checks at the city hall. In future there will be no hold-outs unless the wives do the holding. What is going to become of mere man?

## VOCATIONAL AGRICULTURE

Now schools in the Panhandle are teaching agriculture and the school trustees are responsible for it. In addition to this there are fifteen high schools giving definite courses in stock judging work alone. Texas is a billion dollar agricultural state. That is its products had a value of more than a billion dollars in 1923. Now why shouldn't vocational agriculture be taught in all the country schools where a vast majority of the pupils come from the farm?

## ON THE MARCH

Tennessee is on the march. Chattanooga is to have a nine million dollar cotton factory. Tennesseans are harnessing the waterways of their state and they are following in the wake of the Carolinas and Georgia. They are going to manufacture their raw materials at home.

Chairman Clarence E. Gilmore of the state railroad commission has made the important announcement for a second time that the commission will not consider applications to make carbon black out of Texas natural gas except to burn the waste gas of casing-head gasoline plants only. There are several applications pending for permits to manufacture carbon black by burning natural gas. This ruling is expected to shut off or shut out those who are asking the privilege to violate the conservative policy of the commission.

Cochran as the last unorganized county of Texas, has ceased to be. It is organized, has its own county seat and county government and has been added to Hockley county for administrative purposes. Morton has been selected as the county seat. This county was named, it is said, for the late John H. Cochran, who was born in Dallas county, served many terms and was speaker of the lower house of the Texas legislature, moved to Nolan county where he held many offices, and died at Sweetwater a few years ago. His father was one of the first settlers of Dallas county.

Senator W. R. Cousins of Sabine is responsible for the statement "that enough revenue measures had been introduced by members of the 38th legislature to raise \$100,000,000." Also "that it may be surprising to the people of Texas to know that 25 per cent of the members of the legislature pay only a poll tax and no property tax whatever and that 35 per cent of them pay taxes in amounts under \$10.00." There were three tax measures passed by the legislature—the motor vehicle tax, the two per cent reduction tax on sulphur, and the one per cent gasoline tax. All the other tax bills were killed, with the exception of the two per cent gross production tax on crude petroleum. There was a deadlock of senate and house conferees and the measure died when final adjournment came as the senate conferees refused a compromise of two and a half per cent tax. The house conferees preferred a dead bill to a two per cent tax.

## GRUB

Ever stop to wonder where the food you eat comes from? A commission man, "shopping" in New York, finds spinach from Mexico, homedew melons from South Africa, fresh almonds from the Holy Land, new potatoes from Florida, green peas and asparagus from California, butter from Denmark, eggs from China, meats from New Zealand.

The prices are prohibitive to most people, on the foods "out of season." But even the average person "has it on" such ancient personages as King Tut, when it comes to drawing on the far corners of the earth for food. That's what modern transportation and cold storage refrigeration (invented by Tellier, who died in poverty) does for us. Why, Tut didn't even have ice.

## SHREWD

Boys with chronic Holloway spirit find a hatchet and chop away at the granite steps of the city hall in Brooklyn, N. Y., until they have to outrun a policeman.

The janitor sweeps the granite chips into the gutter. Hundreds watched, then walked away. The stone fragments suggested nothing to them. Two young fellows remained, held a conference, rigged up a stand and soon were doing a land-office business, selling the granite chips as souvenirs. Opportunity generally is made, not found.

## JARNYDICE

Mussolini, of Italian black-shirt fame, probably will hold his job a long time. He's cutting down government expenses. That's the surest-fire vote getter in our age of abnormal war taxation.

Mussolini recently took a blue pencil and whacked off 512 million lire out of the expense estimates from his ministers of finance and interior. He follows this by abolishing 600 Italian courts. We also have too many courts, too many lawyers, too much red tape and delay in legal procedure. The chief reason is that we have too many laws. The idea that we can dodge our problems by legislating them is a national obsession.

## CLEANERS

In Boston only 70 men can be rounded up who are willing to clean the streets at \$4 a day. Necessity compels short-cuts and common sense. Mayor Curley phones the street cleaning department and demands action. So the streets are cleaned by flooding from the hydrants. No dust. No hauling. Sanitary. Through. A tip to other towns.

## MUSIC CAN'T BE FORCED ON THE CHILD

If your boy prefers baseball to violin practice and your girl would rather play jacks than piano, let the children follow their inclinations. Don't force a technical musical education on them.

That's the advice of two of the leading stars on the concert stage today—Mme. Louise Homer, famous contralto, and Mme. Olga Samoroff, pianist. Both are mothers, and both say if their children had no inclination to learn the mechanics of music they would not force this on them.

But musical appreciation can be fostered in pleasant ways than by technical learning, they agree. Mme. Homer believes it is more important to appreciate a masterpiece than to struggle through a sonata without pleasure.

"The development of musical taste," she says, "comes from constantly hearing the best music. Technical study is for the few and gifted, but esthetic study and familiarity of the classics should be within the reach of all children."

To this Mme. Samoroff adds: "Instead of chaining a child to an instrument and forcing it to make bad music it is possible to develop through study of musical history and theory and concert a love and understanding of music in the child."

"It is my hope that courses on musical appreciation will have a definite place in all schools and colleges."

## A THOUGHT FOR TODAY

Many waters cannot quench love, neither can the floods drown it; if a man would give all the substance of his house for love, it would utterly be contemned.—Solomon 8:7.  
The objects that we have known in better days are the main props that sustain the weight of our affections and give us strength to await our future lot.—William Hazlitt.

It is a wise man who doesn't show his ignorance.

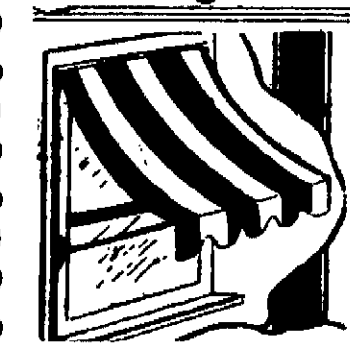

Many a party is given for the pleasure of not inviting someone.

A small town is where the jail is full if they catch a crook.

New York is where a distracted mother hands the baby her cigar instead of the bottle.

## THE FACTS

BY BERTON BRADLEY

She's pretty and cuddly and laughing and young.

With blarney enough at the tip of her tongue.

To jolly an anchorite out of his cave: And as to her eyes—why they never behave!

They lure every masculine person in reach.

I GUESS she's a flirt—but I KNOW she's a peach!

She's sweet and demure in her innocent youth.

Though sometimes it's whispered she juggles the truth (For popular dahsels will tangle their dates).

And fit themselves out of some desperate straits!

Her words are not always entirely sincere.

I THINK she's a liar—I KNOW she's a dear!

She'll coquette with Ninety and flirt with Nineteen.

She hasn't a serious thought in her head!

Incense as water, a butterfly girl Who keeps every masculine head in a whirl!

Yet always about her I faithfully hover.

I GUESS she's a vamp—but I KNOW that I love her!

FROM MRS. MARY ALDEN PRESCOTT TO PRISCILLA BRADLEY

MY DEAR PRISBY:

It was very disappointing to me and I presume you were disappointed, too, that you were called home by the illness of your mother before the wedding.

I would not write to you in this fashion did I not know your mother. Mable Bradford, very well, and I was sure you would find as you did that her illness was more a case of selfishness and a desire to have you entirely to yourself. You know I tried to persuade you when you got the telegram that this was so. But you, as a dutiful daughter, felt you must return home only to find that your prognostications were perfectly correct.

Whatever I may think, my dear Prissy, of this union between my son and Leslie Hamilton, between a man whose ancestors have been statesmen, judges, artists, and professional men, to the daughter of a man whose early years were spent amid the sweat of a steel mill, I must say that the wedding of John and Leslie was very beautiful.

There was, perhaps, too much pomp of convention and pagantry. Wealth, but nevertheless everything went off better than I expected.

Mrs. Hamilton must have had somewhere among her forebears people of culture and refinement. Leslie, as you know, is a very beautiful girl. I am afraid that her beauty was the lure which drew my son's heart to her while others of greater worth were passed by.

There were six bridesmaids and a maid of honor, with accompanying escorts for each as they walked back in the marriage train from the altar. I almost felt, dear Prissy, as I should probably feel if I were looking upon the dead face of my son as I saw him take the ring from his friend, Mr. Sidney Carton, and place it upon Leslie's finger.

There was a loo upon his face that I had never seen before. Even to me, his mother, he had never given such a glance of utter adoration.

I cannot tell you the feeling that I had. Cold hands clasped my heart. Do all mothers feel this way? I think not.

There was a look upon his face great understanding between John and me, while, of course, I have not seen as much of him since he left his home to go to Albany, yet I have always tried to keep in touch with him by writing him letters of

Feel quite certain—in your dealings

admonition and advice.

On the day of the wedding, however, when I looked at that beautiful girl beside him, I felt some way as though my boy had gone away from me. I knew that I had nothing in common with his wife and I suddenly felt that I had grown old and that never again would my boy listen to my counsel. She was another time, almost of another race. Her gods were not my gods, and yet, Prissy, I must tell you of a great surprise I had.

The night before the wedding, after they had had a rehearsal of the ceremony—this seemed to me almost a sacrifice—Leslie came to me and put her arms about me and laid her cheek against mine. It is soft and flowerlike, Prissy. I felt a tug

at my heart, especially when she said: "Dear Mrs. Prescott, I shall never be able to thank you enough for giving me that beautiful desk. Already it has filled a place in my life that I never expected to have filled, already it has brought to me the knowledge that I am no different from all the women who have peopled this earth, because I know that all the women who have sat at that desk have loved as I love your son."

I did not tell her, my dear Prissy, that probably the women of that romantic period of French history who had sat at that desk had not been women of chastity and virtue. I did not want to sully her ideals.

Instead I asked her, "Have you found the secret drawer?" and she answered with a smile. "The drawer is still a secret."

I am sorry to say that this answer dispelled any newfound joy that I had in my prospective daughter-in-law, for it told me that she would never come to me with her joys and her sorrows—that henceforth I should walk this world alone.

Affectionately yours,

MARY ALDEN PRESCOTT

## The Quick Style

The quickest-cooking oats in the world

Now your grocer has Quick Quaker Oats, as well as the regular Quaker.

The Quick cooks in a hurry. It cooks to perfection in 3 to 5 minutes.

It is the quickest-cooking oats in the world.

Thin flakes, partly cooked

In flavor and quality the two styles are identical. Both are flaked from queen grains only—just the rich, plump, flavory oats.

We get but ten pounds of Quaker Oats from a bushel. And that super-flavor has made this brand the leading oat dish the world over.

But in Quick Quaker the oats are cut before flaking. They are rolled very thin and are partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

Now Quaker Oats offers you two great advantages. It offers you flavor which no other oats can match. And it offers, if you wish, the only oats that cook in from 3 to 5 minutes.

For one or both of these reasons you want Quaker Oats. Be sure that you get it, and get the style you want.

Regular Quaker Oats

Come in package at left—the style you have always known.

Quick Quaker Oats

Come in package at right, with the "Quick" label.

Your grocer has both. Be sure to get the style you want.

## HARMING SHOWER TENDERED BRIDE-ELECT IS A FEATURE OF THE POST-LENTEN SEASON HERE

lovely hospitality of the post-Lenten season was the charmingly arranged miscellaneous shower last evening complimenting Miss Anna Murphy, an attractive bride-elect of the month, with Miss Sadie Caulfield as hostess at the home of her mother, Mrs. John Ferguson, 1247 Seventh street. Miss Murphy's marriage to Mr. Andrew M. Garvey of Fort Worth will be an interesting event of April 11, taking place at St. Mary's Cathedral on Wednesday morning at 9 o'clock.

The home was fragrant and beautiful with a lovely profusion of pink carnations, which gave the motif for decoration. The pretty blossoms were clustered in vases and baskets in graceful arrangement about the rooms and lined a pretty setting for the active entertainment.

A large pink wedding bell, suspended from the center of the colonnade between the living room and dining room, held the handsome gifts, and at time appointed for the shower Mrs. Murphy was requested to pull streamers attached to the bell. As the streamers were pulled Miss Murphy was showered with the numerous gifts, including new dresses, jewelry, and many lovely presents from friends and relatives in Canada.

Musical selections were given by Mrs. James Garvey and Mrs. Ferguson during the evening and were enthusiastically received by the guests. During the closing hours of the evening a tempting ice course, featuring the pink motif, was served.

**MRS. BEN PARK CHAIRING** entertained the members of the Tuesday Five Hundred Club with a pleasing affair yesterday afternoon at her home, 1902 Sixth street.

Delicious chafers ranging from pale lavender to a deep purple were decorative features of the home and were displayed in the clusters of bouquets. Table appointments also featured the lavender shades, and the purple tapers in crystal holders accentuated the deep purple scheme.

Among the club members Mrs. C. H. McNeill of Beaumont received the prize for high score and Mrs. J. P. Logan cut consolation. Booby fell to Mrs. L. C. Turner, Mrs. J. M. Spencer of Long Island, N. Y., received the guest's high score favor; Mrs. R. H. Orrell cut consolation; and Mrs. W. J. McGowan received the booby. A lovely salad course was served after the games.

The personnel of players included Mrs. E. M. Spencer of Long Island, N. Y., Mrs. E. T. Hastings, Mrs. W. J. McGowan, Mrs. E. L. Canada, Mrs. J. J. Stripling, Mrs. L. M. McGowan, Mrs. R. J. Conley, Mrs. R. L. Orrell, Mrs. J. D. Seerest, Mrs. Elbert Hall, Mrs. O. F. Spence, Mrs. L. C. Turner, Mrs. H. M. Huber, Mrs. Lee Logan, Mrs. J. P. Logan, Mrs. R. W. Freeman, Mrs. C. H. McNeill and Mrs. F. S. Bertschler of Beaumont, Mrs. R. T. McCoy and Mrs. W. B. Park.

Mrs. Elbert Hall will entertain the club next week at her home, 2337 Eighth street.

**MRS. W. S. THOMAS WAS** cordial hostess to the Women's Self-Improvement club which met in weekly session at her home, 1302 Sixth street, yesterday afternoon for the lesson study and business session.

During the business session plans were made for serving the Department Club luncheon on Monday, April 16. The luncheon will be served at the First Methodist Episcopal church, 11th and Lake Shore drive at 1 o'clock, and arrangements were made yesterday to make the luncheon a most attractive affair.

Officials of the W. S. I. club have requested that each branch of the Department club report how many members will be in attendance on this occasion. Members of each club are requested to phone their club secretaries concerning the reservations.

The lesson study for the afternoon on "Rice Growing" was in charge of Mrs. S. B. Schunk. Roll call was responded to with current events. Delicious refreshments were served at the close of the lesson study.

Those in attendance yesterday were Mrs. P. W. Gifford, Mrs. Ada Smith,

Mrs. H. K. Goodwin, Mrs. E. J. Smith, Mrs. A. L. Humphreys, Mrs. H. A. Winter, Mrs. A. P. Graham, Mrs. N. T. Fuller, Mrs. C. R. Robinson, Mrs. T. W. Huggins, Mrs. J. P. Landes, Mrs. C. P. Gunn, Mrs. P. S. DeWitt, Mrs. S. E. Schunk and Mrs. R. S. Thomas.

**AN ATTRACTIVE COLOR** scheme of lavender and pink featured the bridge party of Tuesday afternoon, having as hostess Mrs. Otto Engstrom, who entertained at her home, 2605 Lake Shore drive, in entertainment of the Tuesday Sewing club.

The colors were displayed in the arrangements of lovely panicles, which gave floral touches in crystal baskets topped with airy bows of pink tulle, and in the bridge table appointments where tallies and score pads in lavender trays were used.

Two tables of players assembled for the games, at the close of which the club prize for high score was awarded to Mrs. George T. Craig, and Mrs. Charles Atwell received the guest favor. A lovely salad course was served after the games.

Players for the afternoon included Mrs. L. C. Liddell, Mrs. R. T. McMillen, Mrs. George T. Craig, Mrs. George B. Stovall, Mrs. Charles Atwell, Miss Mary McFarland, Mrs. Bill Davis, and Mrs. J. B. Saint. Mrs. L. C. Liddell will be the club's hostess on April 18 at her home in the Alameda apartments.

**THE LADIES' AID OF THE** First Methodist church will meet with Mrs. P. S. DeWitt at her home, 909 Stillwell boulevard, tomorrow afternoon at 2 o'clock instead of 2:30 o'clock on account of the reception for the out-of-town artists at Mrs. Fred P. Dodge's home at 3 o'clock. Plans for the entertainment of the Federated Missionary societies will be completed at this session and it is hoped that all members will be present at 2 o'clock.

**MRS. AND MRS. DON DUNLAVY'S** bridge Tuesday evening at their home, 1932 Fifth street, was one of the pleasing affairs of the day, four tables of players being assembled for the fascinating diversion.

The pink and green motif chosen for the hospitality was developed by the use of exquisite Killarney roses with soft tracery of fern. Appointments for the chosen diversion seemed in the same shades, pinks and lilacs showing the pink hues, and the nut cups in the form of pink rose baskets, topped with pink melba boules, giving an added attractiveness to the tables.

For success in the games Mrs. L. J. Hannon and Mrs. Kraus Earhart were presented with handsome prizes, and consolation favors fell to Mrs. James Carroll and Mrs. George B. Ed-

wards. A dainty salad course, reflecting the favored motif, was offered at the close of the games.

Those enjoying the delightful evening were Mrs. and Mrs. George B. Edwards, Mr. and Mrs. James Carroll, Mr. and Mrs. Kraus Earhart, Mr. and Mrs. F. A. Abbey, Mr. and Mrs. L. J. Hannon, Misses Gertrude Collop of Cleveland, Ohio, and Gladys Hollifield; Messrs. L. B. Going and C. B. Mercer; Mrs. J. L. Dun-

lavy and Mr. and Mrs. Don Dunlavy.

**MRS. H. H. HASSELL** entertained with a pleasant birthday dinner party Saturday evening at her home, 2253 Tenth street, honoring her niece, Miss Nora Alexander of Beaumont.

A color scheme of pink and green was effectively featured in the decorations of the rooms given over to the

hospitality, many fine gifts being given. The table was decorated with a lovely pink birthday cake and delicious refreshments. The guests were most enjoyable. The affair was given by Grace Drost, and Miss Alexander, Miss Nora Alexander of Beaumont, and Mrs. H. H. Hassell. (Continued on Page 4)

## "TURN TO THE RIGHT" OPENS CHAUTAUQUA TONIGHT

It's a familiar sign in every city, town and hamlet in the country today. It's a danger signal that might well be applied in traveling along life's highways and byways, too. Incidentally, it's the central theme in America's greatest comedy, which, paradoxical as it may seem, is also one of America's greatest sermons. Mayor that's one reason for its tremendous popularity. "Turn to the Right" is one of the most characteristic American plays ever produced and will be the opening attraction on this year's Chautauqua program. This celebrat-

ed play has been declared by competent New York critics to be America's greatest comedy, yet unlike many comedies it carries a lesson of great moral strength. The cast is professional, coached by Mr. Elias Day of Chicago, and they will present the play with the usual complete setting and costuming that characterizes the work of Mr. Day's many other successful companies. "Turn to the Right" will be remembered by many as having been given very effectively as a reading by Mr. Edwin Whitney several years ago. A run of 412 nights

in Chicago is the record achieved by this admitted Broadway success—a success which proves conclusively that the people want clean, wholesome drama with sentiment, but not sentimentality; with comedy, but not burlesque. "Turn to the Right" furnishes this.

## Society Women Lured To Lose Fortunes in China Gambling Dens

LOS ANGELES, April 4.—Fifteen lotteries running in the heart of Chinatown here are attracting many well dressed women who strive to travel an easy road to wealth by trying for the daily prizes, totaling \$900,000, according to a statement of an investigator who has just surveyed the gambling districts here.

Philippine, Japanese and Chinese indulge in faro and blackjack games, he stated, but the women gamblers, seeking romance of the Orient, play the lotteries exclusively. More than \$150,000 a day is being paid into the lotteries here, it is declared.

Two drawings a day are held in the lottery headquarters, it is said, and the results are telegraphed to practically every city west of the Mississippi river.

## Advocates of Peaceful Russia Almost Mobbed

WATERBURY, Conn., April 4.—"Russia is a wonderful country," remarked Jacob Suirban of Brooklyn, N. Y., in the course of an address before a Lithuanian literary society here.

"Why don't you go there then?" shouted one of the audience.

A police squad, sent there "on suspicion" before the lecture, saved Suirban from the rest of the audience, which suddenly was imbued with a desire to hit him.

## SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe. Being Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy and lustrous—adv.

## Scotch Terrier Drafts League of Nations To Put Out Fire in New York Apartments

NEW YORK, April 4.—Spot, a Scotch terrier, is an international hero. Spot woke up Friday morning and smelled smoke. He raised an Indian howl. An Italian pug room owner heard the howl and with a Greek restaurant man ran to Spot's house. Seeing smoke come from a French window he called a German

police man who rang the alarm. A fire company with an Irish chief responded and saved the 75 Jewish tenants of the building.

The fire was caused by a Turkish cigarette that dropped on a Persian rug in the apartment of an Armenian couple who were dining at a Chinese restaurant.

Angered for the occasion. All members of the Department club and those interested in Music Week are invited to attend the reception.

**THE WOMAN'S AUXILIARY** of the Central Baptist church met in regular session yesterday afternoon at the church with Mrs. T. E. Canedy, the newly elected president, presiding.

The members voted to divide the Auxiliary into two circles, and a committee, composed of Mrs. L. W. Walters, Willie Zoch, Ernest Lohman, Robert Broeder, Conrad Proff, Eddie Donnart, Frank P. Poston, Walter Tierert, Alvin Wukash, Emil Fisher, Adolph Wagner, Ben Donasch, Willie Strauss, Oscar Juretsch, Gus Wukash, Ernie Wagner, Gus Zoch, Carl Gaertner, Paul Rodsch, Walter Wukash, Carl Zoch, Frank Drunagel, Ernest Nock, Herman Donasch, Carl Zoch, Frank Drunagel, Ernest Nock, Herman Donasch, Herbert Bernhardt, Alvin Donasch, Theodore Miller, Arthur Duper, Alfred Durschman, Clarence Barnert, Fred Schulz, Carl Drull, and Mr. Karsh; and Mr. and Mrs. Gaertner.

ALL ARRANGEMENTS HAVE been completed for the Department club's tag sale tomorrow and Friday. The hours for the sale will be from 4 to 7 o'clock.

The women, who will assist Mrs. Frank W. Low, chairman, will meet at the Dipping Hot Ten room at 3:30 o'clock tomorrow afternoon.

The proceeds from the sale will go toward the Department club building fund. It is hoped that a generous response will be received from the public.

THE OUTSTANDING EVENT of tomorrow's social calendar is the reception for the out of town artists at the home of Mrs. Fred E. Dodge, 2200 Fifth street, with members of the Symphony club as hostesses.

The hours for the reception will be from three to five o'clock.

An attractive program has been arranged for the occasion.

At the close of the pleasant afternoon the hostess offered a dainty refreshment service. Many lovely handkerchiefs were received by Miss Statter.

Those enjoying the occasion were Misses Christine Statter, Thelma Addon, Margaret Carter, Ivelle Coogan, Edith Davis, Ruth Gailley, Elizabeth Keeney, Margaret McDonald, Annette Steppers, Dorothy Timmings, Dorothy Stevenson, and Lois Ader; and Mrs. C. A. McDonald.

Mrs. Margaret Carter will entertain the club next week at her home on Fifth street.

AN IMPRESSIVE AND ELABORATE initiation service featured American Legion Auxiliary meeting yesterday afternoon. This was the first initiation ceremony ever staged by the auxiliary.

A rummage sale will be held on April 21 at the Gilt Furniture company on Houston avenue. Anyone having old clothes to give the auxiliary are requested to phone Mrs. M. P. Spill, telephone 1353, and she will call for them. A cordial hour followed and delicious refreshments were served.

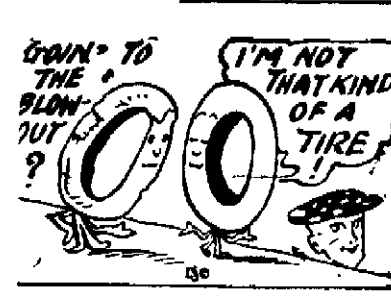

MISS LAURA GAERTNER very delightfully entertained the Senior and Junior League members and additional friends with an Easter egg hunt at her home in Griffin. Games were enjoyed and refreshments of Easter eggs, candied eggs, cakes, and punch were served.

Enjoying the occasion were Misses Louise Zingelmann, Bertha Furchner, Annie Stevens, Minnie Furchner, Lydia Fisher, Gertrude Wagner, Lydia Steglich, Aline Wagner, Ella Jurisch, Dora Steglich, Alma Jurisch, Hulda Krautz, Emma Miller, Mary Kasper, Aline Nitsche, Anna Mitache, Emma Meyer, Norma Ludwig, Ernestine Schneider, Anna Rothman, Anna Wagner, Abbie Rose Cox, Clara Radusch, Franklin Cox, Margaret Montgomery, Laura Moore, Thelma Siebelitz, Thelma Siebelitz, Esther Tietert, and Laura Gaertner; Mrs. Hermann Strauss, Oswald Wukash, Eddie Wagner, Gus Fisher, Ed Walters, Willie Zoch, Ernest Lohman, Robert Broeder, Conrad Proff, Eddie Donnart, Frank P. ## Americans' Colony In Paris Complete; Undertaker Arrives

PARIS, April 4.—"Little America," Paris, is now complete.

Americans here since the war have joined in their own churches, their own hotels, hospitals, clubs and libraries, and recently some among them started a theater.

Now the final addition has come to the colony in the shape of an American undertaker, whose sole and lucrative business is the embalming of Americans dying in Paris for transport to America.

"Like the French in America," says La Liberté, "the Americans in Paris never consider their residence here, even of long duration, as more, than a visit."

"That all mean to go back—and now they all do, even after death."

## MARY PLAN IS UNDER SCRUTINY

### Campaigns Started to Oust Present System

PORT ARTHUR, Tex., April 4.—Active campaigns are under way in a number of states against the primary system of choosing delegates to the national convention as a result of an amendment of President Harding's policy for renomination and reelection, according to republican leaders with the presidential nomination.

State word to political leaders of the president is that Attorney General Daugherty's announcement that the president would run for a second term has started party workers in states actively organizing a campaign against the primary system.

When Mr. Harding makes his tour of the west he is expected to give support to the campaign. Recent indications are that the presidential campaign of 1932 will get a new yearlier and last year was the usual campaign. On his return to Washington next week, the president will hold a series of conferences with party leaders to discuss his plans for the western tour and map out the administrative program for the next two years.

Confidence is now under way with the republican party to eliminate opposition to Mr. Harding. The opponents are determined that he will have a clear road to travel in the party.

At his home that General Leon Wood, a powerful candidate in the presidential campaign. No action for this report could be taken, except that Wood's 1920 victory are being used as a basis for trading purposes.

The president motored today to San Antonio for a golf game and a business polo match.

## PRO BOOTY FOR FIRST 6 MONTHS OF 1922 IS 6,742,341 GALLONS OF BOOZE, 77,873 STILL, 2,211 CARS

WASHINGTON, April 4.—The boot of prohibition enforcement, piled up at the cost of human life, swelled to enormous figures in the first six months of 1922, complete data for the period obtained by the United Press revealed today.

The grand total, comprising 6,742,341 gallons of liquor and mash; 77,873 pieces of apparatus; 2,211 automobiles and 87 boats and launches, is valued by the federal prohibition bureau at \$8,788,878.

**12 Agents Killed**  
In its seizure twelve agents were killed and 33 others maimed.

The cost of making the seizures aside from human life is placed by the bureau at \$43,686,851.

Thus for the six months of its fiscal year, the bureau's forces took and forfeited to the government property and liquor valued at but slightly below its appropriation of \$9,000,000 for the entire 12-month period.

A statistical summary of the work of the six months follows:

**Arrests:** 34,253; **Seizures:** Distilleries 5,311; stills 7,190; still rooms 2,783; **Smugglers:** 223,114 gallons; malt liquor 2,339,149 gallons; wine 307,975 gallons; **Cider:** 13,703 gallons; **Mash:** 7,682,688 gallons; **Homebrew:** 55,409 gallons; **Fermenters:** 61,599; **Automobiles:** 2,211; **Boats and launches:** 87.

Appraised value of apparatus and liquors \$6,911,627.21.

Appraised value of automobiles \$1,100,100.85.

Appraised value of boats and launches \$777,150.

Fully two-thirds of the seizures, except automobiles and boats, have been destroyed by order of federal authorities, after conviction of the lawbreakers in the courts. The remaining one-third of the seizures are stored before destruction.

## Deafness U.S. Menace Says a N.Y. Physician

NEW YORK, April 4.—That deafness is rapidly becoming a nationwide menace and that many automobile accidents could be avoided if the defective hearing of citizens, especially children, was remedied, is the belief of Dr. Paul V. Winslow, who recently made preliminary plans for the organization of a national association for the prevention of deafness.

The boards of education of New York and other cities have worked wonders in caring for school children's eyes and teeth, but little has ever been done by the authorities to care for or improve the children's hearing, the doctor said.

"Catarrh is the worst enemy of the ear. Once catarrh sets in, the hearing is soon affected, and as the disease develops the victim hears less day by day."

Thomas A. Edison and Miss Helen Keller are among the notables who are interested in Dr. Winslow's project. The physician is vice president of the National Round Table for Speech Improvement.

**Pictures the Gas Horrors Of Coming World War**  
PHILADELPHIA, April 4.—Dr. B. G. Wilkinson, traveler, in an address here on the "Coming World War," predicted that the next war would be fought with gas bombs that would easily destroy a city of 100,000 inhabitants.

"We have reached the supreme hour in the world's history," Dr.

Wilkinson said. "The next war will not be fought by armies, or by battleships—but by firing torpedoes, gas bombs and bacilli bombs."

"In the next war poison gases will be used that will penetrate wood and leather. One drop of the gas on the bare skin of the foot will destroy that member. It will suffocate the life of all who breathe it. The contents of one shell will kill everything, animal and vegetable, within an area of five acres and will spread over adjacent areas and do serious damage."

"A few airplanes with these gas bombs can easily destroy a city of 100,000 inhabitants. Satan's ingenuity and cunning will contribute to

**Celebrates Setting Aside of Bond Injunction**

Special to The News. LAKESIDE, La., April 4.—With celebration rivaling the receipt of news of the first American victory, this city "went wild" Tuesday when word came that the state supreme court authorized the parish to issue \$2,750,000 in bonds for a 30-foot channel to the Sabine river and the Gulf of Mexico, via the port of Port Arthur.

Schools were turned out shortly after noon, and hundreds of students "mashed danced" through the city while automobiles dashed through the streets with cow bells, tubes, and tin cans rattling and horns blowing in celebration of the event.

The decision of the supreme court, made an injunction gotten out by the Union Sulphur company restraining the parish from issuing the bonds voted in the election of June, 1922 for the purpose of constructing a 30-foot ship channel to the Gulf of Mexico, with federal aid. A decision was handed down in the 15th judicial court sustaining the Sulphur company, and then attorneys for the parish took an appeal to the state supreme court. Tuesday the word came that the bond issue had been upheld in that tribunal.

Attorneys for the parish were L. H. Moss, Griffin T. Hawkins, Jr., R. K. Stone, and E. R. Kaufman.

## MARKETS

WALL STREET JOURNAL FINANCIAL REVIEW

NEW YORK, April 4.—Asian today stocks were unimpaired by news of impressive underlying strength. Spectacular gains on extremely light sales in stocks of Indrag and Hudson, Willys Overland, Greer and Savage Arms brought to light the decided scarcity in the floating supply of numerous specialties, while resistance to professional pressure shown by the main body of stocks supported the theory that the current period of secondary reaction is not likely to be of lengthy duration. Substantial gains were scored by Mack Trucks, Chandler, White and the Maxwell issues. Steel shares were not far behind in motors from the viewpoint of group strength.

Gains were scored by Midvale and the Bethlehem issues while other leading issues of this class were in good demand. The market closed irregularly: U. S. Steel 67 1/2 off 1; Bethlehem 66 1/2 off 1; Baldwin 124 1/2 off 1; Texas Company 50, unchanged; Sinclair 57 1/2 off 1; Corn Products 124 1/2 up 1; Kelly Springfield 62 1/2 up 1; American Can 45 1/2 up 1; General Motors 124 1/2 up 1; Studebaker 124 1/2 off 1; U. S. Rubber 59 1/2 off 1; Anaconda 19 off 1; Westinghouse 60 off 1; Union Pacific 137 off 1; Southern Railway 124 1/2 unchanged; New York Central 62 off 1; Canadian 46; Virginia and Carolina 17 1/2; Sims Petroleum 15.

Speculative sentiment showed a decided reversal as a result of the recovery in both industrial and railroad averages in yesterday's session and prices were steady at the start of trading. No new developments occurred overnight to give impetus to trading which was quiet in the first 15 minutes. Baldwin, Steel, Studebaker and other speculative leaders started practically where they left off at Tuesday's close while rails were dull.

The stock market opened irregularly today: Fish 72 1/2 up 1; Chandler 67 off 1; Studebaker 124 1/2 up 1; Southern Railway 124 1/2 up 1; Baldwin 124 1/2; New York Central 64 1/2; St. Paul 23 1/2 up 1; U. ## "Miss Sunbury"

Sunbury, Pa., is the first city to select its representative for the annual beauty contest to be held at Atlantic City next September when the most beautiful woman will be crowned as "Miss America." "Miss Sunbury" is Miss Lorena Mutschler.

## Ruler of Japan Plans To Visit Headhunters

TOKYO, April 4.—Hirohito, Crown Prince of Japan, is getting ready to go to see the headhunters. The headhunters are down in Formosa, the tropical island, formerly belonging to China, but acquired by Japan after the Sino-Japanese war. The Japanese administration has made headhunting very unhealthy and has transformed Formosa into a very progressive, modernized colony. Hirohito's visit, to be made in April, will be the first trip of a member of the imperial family to this once savage place, now regarded as one of Japan's most successful examples of her colonization ability.

## FOUR IN HOTEL BURN TO DEATH

**Mother, Two Children, Are Among Victims**

YANBUREN, Me., April 4.—Four persons including a mother and her children were burned to death here yesterday in a fire that destroyed the Kennebec house.

The dead: Mrs. Charles Bouchard, 41, of Carleton, and her two children, both under ten.

Charles J. McCarthy, 35, Grand Isle.

Three other persons were badly burned.

TO MAKE ALCOHOL OUT OF POTATOES

FORT COLLINS, Colo., April 4.—This city may soon have a thriving distillery. But the operation won't be in violation of the 18th

amendment and the product won't be fit to drink, even though it will be alcohol.

The proposed distillery would turn out denatured alcohol, manufactured from the surplus potatoes grown in this community—one of the greatest potato producing regions in the country. Thousands of bushels of potatoes go to waste in Colorado every year.

With a permit from the government, the signatures of ten reputable citizens, a \$2,000 bond, stills and plenty of potatoes, denatured alcohol could be turned out inexpensively and sold at a good profit and potato growers would find a ready market for their product, backers of the proposed plant state. One hundred pounds of potatoes will produce four gallons of denatured alcohol, it is claimed.

The alcohol can be made from culls and "scrubs" just as well as the good potatoes sold on the market, backers of the venture declare.

German War Brides Feared the Indians

SAVANNAH, Ga., April 4.—American mice, rats, cockroaches, and

palm trees.

These are the four things that have most vividly impressed the little group of German war brides who have made their home at Fort Screven, near here, since their arrival on the transport Man Mihil.

"The mice, the rats, the cockroaches—Ah! I'll never forget them," a smiling blue-eyed frau declared in explaining there were no pests such as these in Germany.

Next to the rats and cockroaches, the palm trees were the biggest source of wonderment in the little foreign colony here.

Before their voyage to the New World every picture of palm trees they had seen in Germany contained hands of savages in the foreground. When the San Mihil began to near the American shore and passed islands dotted with palm-trees, the fears of the war brides began to rise.

When they were quartered in the bungalows built at Fort Screven in a clump of palm trees they began to

look for bands of savages. Only after several days had passed without a raid on the colony by Indians did the thrifty housewives from the Rhine rest in peace.

## Richest Indian Will Recover \$216,000

**Paid as Income Tax**

MUSKOGEE, Okla., April 4.—Jackson Barnett, world's richest Indian, will add a few thousand dollars to his fortune by an opinion handed down by the internal revenue department here today that Indian oil royalties are not taxable.

Jackson will recover \$216,000 paid to the government as income tax for the years 1917-20, his attorney W. A. Barker, announced.

Six other Indians benefited to the extent of from \$30,000 to \$120,000 by the ruling, Barker said.

VENTILATING  
PORCH SHADES

All Shades are 7'-2 Feet Long  
FINE FURNITURE

The VUDOR Ventilating Shade is entirely different from any other shade on the market. It has a ventilator woven in the top of the shade itself—we illustrate at left. This ventilator allows the heated air to pass out freely from underneath the ceiling of the porch while the remainder of the shade, being closely woven, protects one from the rays of the sun.

### SELF HANGING

With our patented Self-Hanging fixture you simply hang the shade in position upon staples previously driven through the VUDOR printed pattern which comes rolled in each shade. No measuring, no screwing. Unhook the shade in the Fall; hook them up again in the Spring.
